

Now you can have  
your cake and—  
oops, bad analogy.

Removes fat and  
reshapes your body

Achieving the body you want just got a whole lot easier. Our revolutionary laser lipolysis treatment literally melts away fat in trouble spots like your abdomen, thighs, arms and neck. The results last longer than dieting or exercise and since the treatment is minimally invasive, you'll be in the doctor's office one day — and out turning heads the next.

To locate a Smartlipo™ physician near you and to find out more about our special offer in the TestTube, visit [cynosure.com/newbeauty](http://cynosure.com/newbeauty).

From the company that brought you the *Affirm™* anti-aging laser...

**Smartlipo™**  
A new technology that's revolutionizing the industry.

"Our patients are very pleased with this new technology. Due to the minimal amount of downtime, patients that have undergone the procedure have returned and asked for other areas to be treated."

DR. BARRY DIBERNADO, MD; *New Jersey Plastic Surgery*

"Smartlipo gave me back a flat stomach and the skin became dramatically tighter. I am very, very happy... I think people are going to be on waitlists for years to come."

LIZ, *Smartlipo™ patient*
